Birthday Happiness Asia

Saturday 31st January 2026 2:30pm

Facebook Live @vibesilverminebay and published at Live at VIBE HK

Our Cofounder, Marilou grew up in a deprived family in the Philippines and never had a birthday party growing up. However she saw the value of a joyous birthday party and always insisted that our children had a joyous party. Our mission is to fulfil her dream.

Birthday Happiness Asia is dedicated to delivering birthday happiness to every less fortunate child in Hong Kong.

We are planting the 'seeds of hope' in their young hearts. A joyous birthday party will serve as a very happy memory, especially in the hardest of times when they will remember that people love and care about them and carry on living.

With over 500,000 children living on or below the poverty line in Hong Kong, come and hear how BHA is helping to 'plant the seeds of hope' in many of these young children and help them look beyond their limited horizon and reach their full potential. The sky is the limit. The children will benefit and in the longer-term, so will Hong Kong and the society we live in together. You will have a joyous time - joy is contagious.

Since our formation in 2021 we have celebrated 1,591 birthdays over 188 joyous parties

Edward Fernandes will be presenting
